

Zaytoun is the UK's leading brand of Palestinian fine foods. We are a Community Interest Company, a social enterprise founded to support Palestinian farmers through fair trade. 100% of our profits are reinvested into furthering this mission.

Harvested and prepared by hand, our products are a testament to the proud heritage of the Palestinian people.

All Zaytoun products are ethically sourced from growers that we know. We are proud to share the gifts of their vibrant culture with you.

Extra Virgin Olive Oil

Palestinian Extra virgin olive oil is our flagship product, with a unique peppery flavour.

Produced from rain-fed and hand-picked olives that have been pressed on the day of picking, this award-winning extra virgin oil is ethically-sourced from small-scale farmers in the West bank on fair trade terms.

From stone terraces nestled on sun-drenched West Bank hills, this oil connects you with farmers whose ancestors have tended their trees by hand for countless generations - people who know their trees both as old friends and as a lifeline for their children.

Please note: We normally stock organic & Fairtrade certified olive oil, however, due to security issues in the West Bank, the certification process has been disrupted. In the meantime we have a plentiful supply of extra virgin olive oil which doesn't carry the certification marks, sourced from the same farmers and produced to the same high standards.
